ON-DEMAND WEBINAR

The Frail Elderly Adult

Dr. Melissa K Andrew,
MD

Objectives:

- Appreciate that frailty is not a single problem; people who are frail have many things wrong at once.
- Understand how frailty can be defined, assessed and measured for screening depending on context and goals of care.
- Discuss the associations of frailty with key health outcomes.
- Appreciate the importance of social context for people who are frail.
- Consider evidence and action to support frailty prevention and reversibility/management.
- Discuss the importance of frailty for planning and improving systems and transitions of care.

Includes:

- 2 hours of Continuing Education
- On-Demand Access for at Least a Year
- Certificate of Completion
- PDF handouts to view or print

$39 + GST
