ON-DEMAND WEBINAR

Extracorporeal Life Support - ECMO & MCS

2 Part Webinar Series:

Part A: Extracorporeal Membrane Oxygenation

1. We'll go into the indications, definition & configuration of veno-venous (VV) & veno-arterial (VA) ECMO.
2. We'll dive deep into nuances of patient management including an examination of nursing priorities.
3. We'll also briefly examine the role of the perfusionist & the emerging role of the ECMO specialist.
4. finally we'll look the how & why of weaning, associated complications & outcomes.

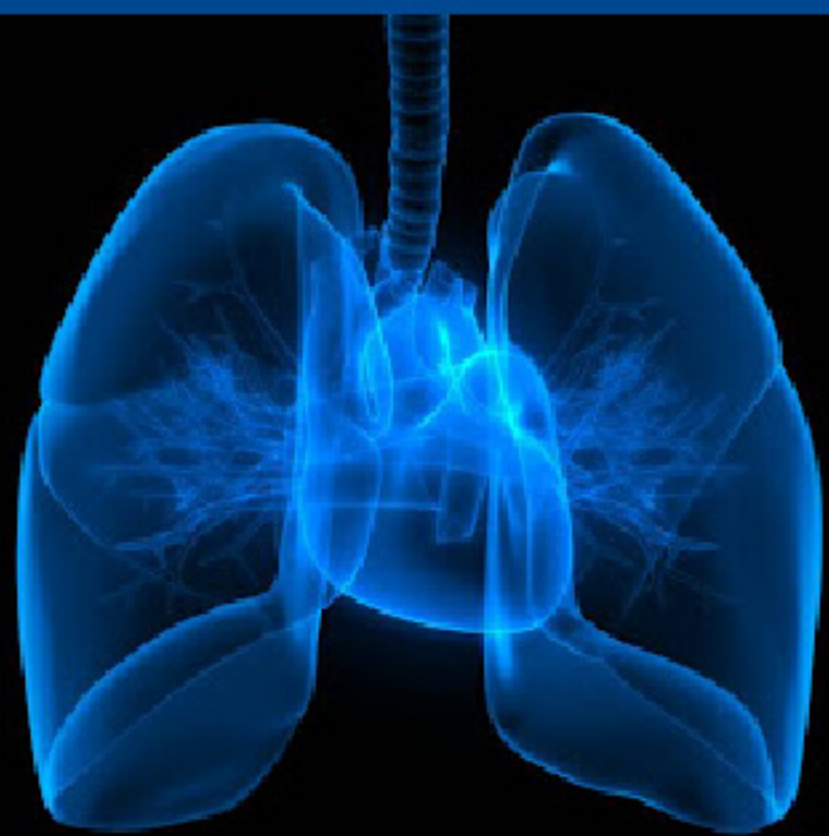

Part B: Mechanical Circulatory Support

1. We'll cover the most common types of short term & long term ventricular assist devices (VADs) & their indications.
2. We'll then look at the the decision process, description of patient profiles, & management.
3. Finally we'll look at the complications & outcomes of the different types of MCS devices.

Christopher Coltman,
RN, BScN

ECMO & MCS
