ON-DEMAND WEBINAR

Adult ADHD

Dr. Gurdeep Parhar,
MD CCFP CCBOM CIME

Objectives:

At the end of the session, participants will:

- 1.** Understand the prevalence of adult ADHD in the general population.
- 2.** Identify symptoms of adult ADHD and their impact on personal, educational, occupational, family and social functions.
- 3.** Identify psychiatric disorders that frequently co-exist with ADHD in the adult population.
- 4.** Learn how to assess patients using accepted diagnostic criteria.
- 5.** Review the non-pharmacologic and pharmacological options for the treatment of ADHD.
- 6.** Discuss positive outcomes when ADHD is identified and treated in the adult patient population.

Includes:

- 2 hours of Continuing Education
- On-Demand Access for at Least a Year
- Certificate of Completion
- PDF handouts to view or print

\$39 + GST
