Monday, April 13, 2026
10 AM - NOON MT

Headache & Facial Pain

Anuj Aggarwal, M.D.

Objectives:

1. Classify common headache and orofacial pain syndromes using a practical, mechanism-informed framework.
2. Recognize clinical features that guide appropriate use of neuroimaging and further evaluation.
3. Select evidence-based pharmacologic and nonpharmacologic treatment options for common headache types.
4. Integrate headache and orofacial pain presentations into a cohesive diagnostic and management strategy.
5. Develop a structured approach to managing patients with overlapping or chronic pain complaints.

Includes:

- 2 hours of Continuing Education
- The "live" webinar if registering in advance
- On-Demand Access for at Least a Year
- Certificate of Completion
- Q&A Session; handouts to view or print

Save 10% with early registration until January 21.
