10 AM - NOON MT

Cardiovascular Meds Simplified

Christopher Coltman,
RN, BScN

**CARDIOVASCULAR
MEDS SIMPLIFIED**

Objectives:

1. Master the lifesaving role of vasopressors and inotropes in acute heart failure and cardiogenic shock.
2. Unpack the beta-blocker revolution—from “never use” to “must use” in heart failure.
3. Demystify RAAS (Renin Angiotensin Aldosterone System) blockers and discover how they truly transform heart failure care.
4. Navigate the antidysrhythmic landscape—know the go-to agents and when to use them.

Includes:

- 2 hours of Continuing Education
- The "live" webinar if registering in advance
- On-Demand Access for at Least a Year
- Certificate of Completion
- Q&A Session; handouts to view or print

Save 10% with early registration until January 21.
