Live Webinar: *March 15, 2027*

10:00 UTC-6 (Mountain Daylight Time)

Parkinson's and Movement Disorders

Steven Atkinson, *PA-C, MS*

OBJECTIVES:

By the end of this session, participants will:

1. Explain key neuro-anatomical and pathological mechanisms.
2. Recognize motor and non-motor features and apply a clinical framework & diagnostic approach.
3. Differentiate idiopathic Parkinson's disease from common mimics and atypical syndromes.
4. Distinguish Parkinson's disease dementia, dementia with Lewy bodies, mild cognitive impairment, and delirium using key clinical features and temporal diagnostic criteria.
5. Develop an evidence-informed management that addresses symptoms, medication complications, fall prevention, and geriatric safety concerns.
