The Dark Triad of Personality Traits

Daniel N. Jones
Ph.D

Do you have a client, patient or colleague that seems to be a master manipulator?

Someone who is charming, yet toxic? Someone who seems to breeze through causing betrayal, deception and harm on an interpersonal and/or organizational level without a second thought? If so, welcome to the Dark Triad of Personality Traits.

Join us for this fascinating webinar where Dark Triad expert Daniel Nelson Jones Ph.D. will help us:

1. Understand what constitutes a “Dark Personality” (the combination of Psychopathy, Narcissism & Machiavellian-ism) and how it is different from clinical disorders and other potential harmful traits.
2. The differences between the three Dark Triad traits, especially the different ways that they manipulate.
3. Learn how to assess, recognize, and potentially flag individuals who are problematically high in a Dark Triad trait.
4. To learn strategic ways to protect yourself from someone who displays a Dark Triad trait.
5. To consider ethical constraints when managing a group or team with a Dark Triad member.

Includes:
